The Eastern Atlantic States Regional Council of Carpenters is part of the United Brotherhood of Carpenters and Joiners of America. Our union trains and represents highly skilled carpenters in Delaware, Maryland, New Jersey, Pennsylvania, Washington DC, Virginia, and West Virginia.

THE CRAFTS OF CARPENTRY

Safety - Productivity - Training - Craftsmanship - Discipline

GENERAL CARPENTERS: General carpenters provide the crucial foundation for concrete, exteriors, roofs, infrastructure, scaffolding, fine trim and finish work within the Industrial construction industries.

FLOOR COVERERS: Floor coverers install a wide variety of flooring materials, including carpet, resilient, wood, laminates, sport surfaces, and polished concrete. UBC floor covering professionals are industry recognized experts at their craft.

INTERIOR SYSTEMS: Interior systems carpenters specialize in assembling complex systems such as acoustical ceilings, computer access flooring, metal framing, wall partitions, and office furniture.

LATHERS: Lathers build structural frameworks for plaster and other materials, creating such wonders as theme park attractions and ornamental ceilings. Skilled lathers mostly utilize wire and metal mesh to create structures of various shapes.

MILLWORK & CABINETMAKERS: Cabinetmakers and millworkers fabricate and install detailed decorative wood-working including trim, molding, cabinetry, doors, trade show displays, and more.

MILLWRIGHTS: Millwrights install, maintain, diagnose, and repair equipment such as compressors, pumps, conveyors, gas and steam turbines, monorails, and extruders. They can be found performing mission critical work at coal, gas, nuclear, and alternative-energy power plants.

PILEDRIVERS: Pile drivers drive steel, concrete, or wood piling into the earth during the early stages of construction. They set up the foundation of skyscrapers, highways, bridges, solar fields, and on/off-shore wind as well as build docks and wharfs.

RESIDENTIAL CARPENTERS: The residential carpenter is an all-around carpenter with experience in nearly every aspect of residential construction. These UBC professionals install flooring, windows, doors, interior trim, cabinetry, roofing, siding, insulation, drywall, and more.

TRADESHOW CARPENTERS: Trade show carpenters are tasked with a range of jobs including constructing and installing the exterior and interior of booths for convention exhibits as well as dismantling them.

CARPENTERS' APPRENTICE READY PROGRAM

This unique program brought to you by the Regional Carpenters' Apprenticeship Committee was created to enhance opportunities for women and minorities. It offers qualified candidates the chance to pre-register for an 8-week pre-apprentice training program that introduces participants to the basics of the carpentry related construction industry. After graduation from the pre apprenticeship training program, candidates can apply for entry into their local registered carpenter apprenticeship program.

WHY CARP?

- Opportunity to learn a unique trade that is always in demand and makes a positive difference in your life and in your community.
- Opportunity to earn family sustaining wages and benefits after successful completion of CARP once you enter your local registered apprenticeship program.
- Opportunity to earn professional pride and become a member of some thing bigger by joining an international organization of brothers and sisters dedicated to protecting workers' wages and rights.
