

FURTHER YOUR APPRENTICESHIP EDUCATION WITH A DEGREE FROM ROWAN UNIVERSITY

This collaboration between the EAS Carpenters Tech and Rowan University creates a certificate pathway to a bachelor's degree. Three stackable certificates along with the completion of the Carpenters Apprenticeship and several additional general education classes results in a Bachelor's degree in construction management.

An EAS Carpenter apprentice-student on the Carpenter Track who takes two courses per term for all four years of apprenticeship would graduate with a Bachelor's in Construction Management; as well as receive certificates in:

- Construction Management
- Project Management
- Construction Leadership

Here's How It Works

Construction Management College of Engineering

EAS Carpenters Program	Rowan Transfer Credits
Cabinetmaker Program	65 Credits
Carpenter Program	54 Credits
Floor Layer Program	54 Credits
In-House Carpenter Program	65 Credits
